

MAKE YOUR OWN SUMMERTIME SPINNERS!

Supplies:

Printer, paper, cardboard from a box, crayons or markers, scissors, glue or spray mount, something to poke a hole through the cardboard (a pen works well!), 28"-long string

Directions:

Print two copies of the pattern you want to use

Color them in (the more colorful, the more fun it is to see as it spins)

Cut out the circles you colored

Use the circles you colored to trace a circle on a cardboard box and cut it out

Glue one of the circles onto each side the cardboard

Poke two holes in the center of the circle (as indicated in the pattern with small circles)

Take your string, loop it through the holes and tie a knot to close the loop

Hold one side of the string loop in each hand with the circle in the middle, as shown, and twist it in circles to twist the string

Then pull...relax...pull...relax

The spinner should make a humming noise and will keep on spinning as long as you keep pulling!
