

1
Pepperoni

2
Tomato

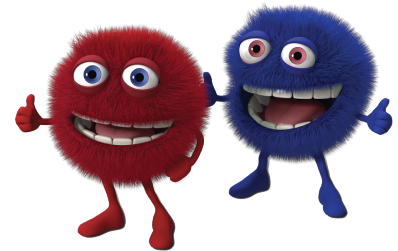

3
Olive

4
Green Pepper

5
Mushroom

Directions:

Print out both pages — one set for each player. Color the pictures according to their outline color. Cut the crust and each topping on the dotted line.

To play the game, you will need one dice. Once you have them all colored and cut out, you are ready to play.

To begin the game, each person will place their own pizza crust in front of them. Then place all the vegetables face up in the middle of the players.

(Remember you needed to print one set of these pages for each person playing). The object of the game is to see who can build their pizza first.

Each person takes turns rolling the dice. You must roll a 1 to place a pepperoni on your pizza, a 2 to place a tomato, a 3 to place an olive, a 4 to place a green pepper and a 5 to place a mushroom. If you roll a 6, you lose a turn. Your pizza must have one of each topping to win!

** Cool Tip: You can use baking sheets as your surface for playing the game! GOOD LUCK and HAVE FUN!*
