

# A SWEET GIFT FOR DAD!

## INSTRUCTIONS:

1. Print your chosen design on cardstock and cut out around the edges.
2. Trace and cut out matching shape from clear plastic. Gallon-sized plastic zip-baggie or sheet protectors work well.
3. Decorate the paper cutout design with a message or Dad's favorite colors.
4. Hole punch around the edges of the paper and plastic at the same time.
5. Use yarn or nylon lacing to sew the two sides shapes together. For easy filling, start below the narrowest part of the tie and leave the top portion open with extra thread on each end.
6. Fill with Dad's favorite candies or snack!
7. Sew the top shut and tie off ends so the treat bag is fully sealed.
